

ABSTRACT OF THE DISCLOSURE

A moist paper towel package includes a bag body and a cover sheet. The bag body includes a top wall formed with a tear-off seam defining a pull tab precursor. The
5 cover sheet has one side which is provided with an adhesive layer and which is adhered to the top wall. The cover sheet covers entirely the pull tab precursor and the tear-off seam and covers a portion of the top wall surrounding the pull tab precursor. The tear-off
10 seam is tearable to form the pull tab precursor into a pull tab when a portion of the cover sheet is pulled away from the top wall.
